

PLAYER RESPONSIBILITIES

Be courteous and patient. Wait to hit until safe to do so.

Play ready golf and keep play moving.

Divots on tee box and fairways should be properly filled with sand/seed mix level with dirt

Par 3's are cart path only exception: #10, maintain 90° rule and return to cart path

Carts should make every effort to avoid fairways on par 4's, drive in rough and use 90° rule to reach your ball

Golf carts are to avoid driving around any greens and are required to park on paths at all times. Exceptions are handicapped carts identified by blue handicap flags

Bunkers should be properly raked and rake replaced in bunker with handle facing fairway. Remove sand from shoes by knocking your shoes with club

Fix your ball mark and one other prior to putting on greens

To avoid slow play do not loiter on greens or greenside. Move to the next tee to mark scorecard or clean clubs

It is the responsibility of all golfers to take accountability for errant shots that may have caused property damage or personal injury.

Slow play is no fun for anyone. Allow faster players to play through when possible
